

# SERGEI USACHEV

Novi Sad, Serbia • [usachev97@gmail.com](mailto:usachev97@gmail.com) • [linkedin](#) • +381629378979

**Frontend Developer** with 4.5+ years of experience in large tech companies, skilled in both solo and team development. Proficient in JavaScript, TypeScript, React.js and Next.js. Experienced in optimizing building processes, enhancing UI development workflows, and building large-scale applications.

## WORK EXPERIENCE

---

### Frontend Developer, [Space307](#) (International full-cycle fintech company)

March 2022 - Present (3+ years)

As a key member of a 5-person internal development team, I led and contributed to the creation of 15+ internal services and platforms, tailored to optimize HR processes and internal communications.

- Created and maintained the public [company site](#), boosting brand presence;
- Developed and launched an internal HR system to manage employee data for 1000+ users;
- Built a new internal portal from scratch — [view case on Behance](#);
- Launched responsive event pages for hackathons, marathons, and charity campaigns;
- Mentored 2 junior developers, fostering team productivity and growth

**Tech stack:** React, Next.js, TypeScript, JavaScript, Zustand, MobX, SCSS, CSS Modules, Tailwind CSS, i18n

### Frontend Developer, [Rosatom](#) (leading corporation in the field of nuclear energy)

March 2021 - March 2022 (1 year)

Worked on the development of the "Employee's Personal Cabinet" — a large-scale internal HR system used daily by over 50,000 employees for managing documents, vacations, and personal data.

- Improved org chart visuals and added features like hierarchy navigation and search;
- Optimized vacation and business trip flows, reducing form errors;
- Delivered new sections in the employee profile, including editable personal data and tabbed views;
- Created reactive modules with RxJS to support live updates and user-driven workflows;
- Collaborated cross-functionally with backend engineers, QA specialists, and analysts to ensure high-quality feature delivery in a fast-paced enterprise environment.

**Tech stack:** React, TypeScript, Redux, Redux-Observable, RxJS, Docker, Ant Design

## EDUCATION

---

### Baltic State Technical University

Sep 2015 - Feb 2021

Specialist Degree in Radioelectronic Systems and Complexes

## SKILLS

---
